Inventory (American English) or stock (British English) is the goods and materials that a business holds for the ultimate goal of resale (or repair).. Inventory management is a discipline primarily about specifying the shape and placement of stocked goods. It is required at different locations within a facility or within many locations of a supply network to precede the regular and planned ...

Inventory - Wikipedia

History and etymology "Accountability" stems from late Latin accomptare (to account), a prefixed form of computare (to calculate), which in turn derived from putare (to reckon). While the word itself does not appear in English until its use in 13th century Norman England, the concept of account-giving has ancient roots in record keeping activities related to governance and money-lending ...
